

# Multiple Sclerosis Association of America

## *Donor Impact Report* Winter 2025

Thank you MSAA and  
all who support its  
excellent work to  
assist the MS  
community!

Tammy Q.  
December 2024

On behalf of our entire organization, we extend our **deepest gratitude** for your **generosity, vision, and unwavering commitment** to MSAA and our mission. **Your support** has been instrumental in driving real, lasting impact on the **quality of life** and care of those living with MS.

**Together**, we continue to be a premier organization dedicated to **improving the lives of those living with MS**, and we are honored to have you as a **partner** in this journey.

A special thank you to everyone  
involved with Team MSAA this  
year!

Collectively the team raised nearly  
\$120,000 for MSAA.

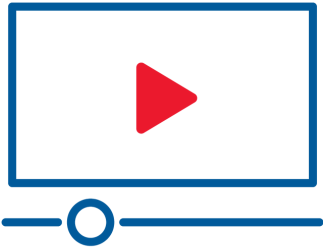

*more than*

2,300

Last year, MSAA received **over 1,000 applications** to our **Cooling and Equipment Distribution Program**. Thanks to you, we were able to provide **more than 2,300** pieces of safety, mobility, and symptom-management equipment.

# Resources YOU Make Possible

## Multiple Sclerosis Information (MSi) Video Library

Through the MSi initiative, MSAA offers an extensive library of on-demand video programming, webcasts, and webinars that bring information and empowerment right into the privacy and comfort of a person's home.

## Recursos en Español

La Asociación de Esclerosis Múltiple de América es un recurso líder para toda la comunidad de EM, mejorando vidas hoy a través de servicios vitales y apoyo.

## The Motivator

MSAA's magazine highlights and explains many vital issues of importance to our readers affected by MS. Columns appearing in each issue include "Ask the Doctor," "Research News," "Program Notes," and others.

## MRI Access Program

In February 2025 MSAA reopened the MRI Access Program and will be transitioning to a new and innovative research program in the coming months. The MSAA MRI Access Program assists with the payment of cranial (brain) and c-spine magnetic resonance imaging (MRI) scans for qualified individuals who have no medical insurance or cannot afford their insurance costs and require an MRI to help determine a diagnosis of multiple sclerosis or evaluate current MS disease progression.
